Snowmobiling

On the way back to Lionhead. Came upon this recent avalanche. Rushed up to the group of 4 guys. They were fine, not the guys who set it off. The group of 6 we passed going there set it off. The group of 4 said they saw these guys ... all on the hill at same time, stuck and climbing around the stuck guy. All were okay but I hear one guy was shaken up. 4-5ft deep at break by 200-300ft wide, ran 400+ft.
