

We rode into Tepee Basin and saw two recent avalanches on 3/2/24. This one looked like it maybe happened yesterday, on a heavily wind-loaded slope below some cornices, 2-2.5' deep and 250-300' wide. Photo: GNFAC

Advisory Region Southern Madison Longitude -111.19W Latitude 44.90N

**Avalanche Details:** Natural avalanche in Tepee Southern Madison, 2024-03-02
